

Tom Loughlin

Tom Loughlin is a professor and chair of the Department of Statistics and Actuarial Science at Simon Fraser University in Burnaby, British Columbia, Canada. He got his PhD in Statistics from Iowa State University and spent 13 years at Kansas State University before moving to SFU in 2006. Tom has broad research interests in many areas of statistical application and method development, including statistical learning, modeling categorical data, design and analysis of experiments, and statistics in sports. He has published a book, "Analysis of Categorical Data with R," co-authored with Chris Bilder and available from CRC Press. Tom has extensive experience as a statistical consultant and has PSTAT accreditation from both the ASA and the Statistical Society of Canada. He is also a Fellow of the ASA.
