

#### Biography:

Dr. Lisa Lix is Professor of Biostatistics and a Tier I Canada Research Chair in Methods for Electronic Health Data Quality in the Department of Community Health Sciences, Max Rady College of Medicine, University of Manitoba. She is also Director of the Data Science Platform in the George & Fay Yee Centre for Healthcare Innovation (CHI), a research unit that is a collaboration between the Winnipeg health region and the University of Manitoba. The CHI aims to strengthen patient-focused research in Manitoba. Her team of 30+ faculty, staff and trainees with expertise in biostatistics, bioinformatics, and clinical research methodology focuses on methodological research, training, and consulting.

Dr. Lix's areas of research expertise include methods to address bias and error in electronic health databases, statistical methods for the analysis of patient-reported outcomes, and methods for the analysis of longitudinal data. She is a prolific researcher who has published more than 325 scholarly papers. Dr. Lix is an elected member of the Board of Directors of the Statistical Society of Canada, Program Chair for the Society's 2019 meeting in Calgary, Co-Chair of the Data Quality Working Group for the Canadian Chronic Disease Surveillance System, and Program Chair Elect for the 2020 Joint Statistical Meetings Health Policy Statistics Section.
