

ICOTS 12 is calling for contributions

[Home • ICOTS 12](#)

You are warmly invited to the first ICOTS to be held in Australia, from 12th to 17th July 2026. The beautiful conference venue is in the heart of Brisbane.

The logo for ICOTS 12 represents part of the Brisbane River (**Maiwar**) as it winds through Brisbane (**Meanjin**), and represents both the continuity of the statistics education community and navigating the complexities of statistics and data science education.

ICOTS, held every four years in different countries around the world, is a most important event for all interested in the teaching and learning of the statistical and data sciences. As well as internationally renowned speakers, the ICOTS 12 programme has an overall Theme and Main Topics ranging widely over school, tertiary and workplace contexts within and across disciplines, technologies, training and research at all educational levels. ICOTS 12 has 10 named Main Topics and a Contributed and Other Topic.

The first call for abstracts is now open for paper proposals to be featured under Main Topics 1-10.

See [Home • ICOTS 12](#) for Main Topics (under Scientific Programme) and for Submissions and Important dates under Notices and Guidelines.
